

Rose City Gymnastics Community Sponsorship

Rose City Gymnastics is Windsor & Essex County's oldest and only not-for-profit gymnastics club.

- We have approximately 1,000 athletes and their families that visit our gym on a weekly basis
- We also have weekly birthday parties and field trips from our local schools and daycares
- We offer programs from 18 month parents and tots to adult open gym
- We have athletes that range from Beginner Recreational to High Performance National
- We employ over 40 youth from the Windsor and Essex County communities annually
- Our families are diverse ranging from stay at home moms to business owners

All of our athletes strive to be the best they can be; no matter their level, their background, or any obstacles in their way. We take pride in providing them with every opportunity we have available to reach their individual goals.

We assist some of our families by accessing funding such as Jumpstart and Pathway to Potential (P2P). Our goal is to expand our ability to offer assistance through our community sponsorship programs by introducing the Rose City Community Club Fund for athletes in need both recreationally and competitively. No athlete should be stopped from reaching their potential in life.

Rose City Community Club Assistance Fund

The Rose City Community Club Assistance Fund assists families in need by allowing their children to participate in any of our programs that would otherwise not be accessible to them due to financial barriers. If they have the desire and the ability we will strive to provide help and opportunities.

Other funds that our accessible to our families only fund a small portion of recreational activities and not competitive activities. The Rose City Community Club Assistance Fund will provide funds for both recreational and competitive athletes.

Gymnastics is one of the top sports that children participate in across Canada. Sadly many of our communities' children do not participate in any physical activities which puts them at risk for obesity and other health issues. Through our fund we hope to make our programs accessible to more children.

Your contributions will directly assist many families. Through this fund we hope to continue to Add Balance to Life One Child at a Time.
